

OFFICE OF SECURITY WEEKLY STAFF MEETING

ROOM 4E-64

3 February 1977

1. Awards

Certificate of Appreciation for Service on the Interagency Task Force for Indochina Refugees.

As a result of the fall of South Vietnam in April 1975, some 140,000 Vietnamese refugees managed to escape from the country and be brought into the United States. An Interagency Task Force, headed by a senior State Department officer, was formed to handle this massive influx into the United States. Several federal agencies, including the Agency, were heavily involved in the processing and resettlement of these refugees. The Interagency Task Force deemed it appropriate to recognize the effort made by employees of the several federal agencies concerned in supporting this activity and in this regard, the following Office of Security employees were recognized for service on the task force:
